RAINWEAR PROTECTION & PROTECTION CLOTHING

The use of proper protective safety clothing and personal protective equipment (PPE) are essential for all tasks. This is important to reduce the risk of injury.

How do I choose the right chemical protective clothing for the job?

It becomes apparent that you must carefully choose the appropriate clothing material for each job. Before deciding which type of chemical protective clothing to use, you should gather and analyze information based on a number of factors such as:

1. Complete and accurate description of the task.
2. List of the chemicals involved as well as physical hazards such as abrasion, tearing, puncture, and temperature. The type of hazards will affect the decision on which chemical protective clothing to use in addition to gloves.
3. Flexibility and touch sensitivity needed for the task.
4. Type of potential contact (e.g. occasional contact, splash protection or continuous immersion).
5. Contact period. The duration that the worker could be in contact with the chemical (and which chemicals) may also influence the selection of the type and thickness of the protective clothing.
6. Potential effects of skin exposure. The immediate irritation or corrosion of the skin must be considered in addition to the potential health effects to the entire body from absorbing the chemical through the skin.
7. Decontamination procedures. Consider whether the clothing should be disposed of or cleaned after use. If they are to be cleaned, consider the cleaning method, how often they can be cleaned, and any special procedures required for disposing the "decontamination wash waste"?
8. Training required. This includes:
 - > What are the hazards of skin contact with the chemical,
 - > What are the limitations of the protective clothing,
 - > What could happen and what to do if the protective clothing fails, and
 - > When to dispose or to decontaminate the protective clothing.

PROGUARD
Your Ultimate Partner In Safety®

Suggested materials should be selected based on quantitative information such as permeation rate, breakthrough time, penetration, degradation, and other considerations mentioned. Various factors like the thickness of the materials, manufacturing methods, and product quality control can have a significant effect on these properties.

How to choose the right apron for your needs ?

An apron should be worn to protect the body and clothing from splashes and spills. For example, when mixing horticulture pesticides that are corrosive or cause burns. This means they must be long enough to cover the body from the shoulder to mid-calf and be made from chemical resistant material, for example, PVC.

The following considerations are customary when choosing a heavy-duty apron for outdoor cooking, carpentry, welding, or other industrial uses:

1. Aprons that will be subjected to sparks or flames must be made of flameproof fabric or treated with flame retardant.
2. Aprons used to carry heavy objects such as nails or tools must be made of heavy duty fabric and have reinforced pockets.
3. Consider how much of the body the apron needs to cover. A short half apron is suitable as a carpenter apron, while a full wrap around apron is better for wearers subjected to flames or sparks.

RAINWEAR

Heavy Duty Visibility Rainsuit with High Reflective Strip

Model: **ST-3620-Y**

- Made of 0.30mm PVC on polyester broadloom fabric.
- Jacket features a non-detachable drawstring hood which can fit over safety cap.
- Front zipper and extra flap for extra waterproofing & protection.
- Ventilation cape & 2 front waist pockets.
- Waist pants feature elastic band for multiple waist sizes.
- All snap-on buttons are non-conductive, non-corrosive, and rustproof.
- Combination of Brite safe yellow colour with 50mm reflective strip around the waist, arms, & knees for excellent high visibility.
- 2 pcs: Jacket & Trouser

Malaysia Design No: 01-00352
 Packaging: 1 set/polybag, 20 sets/carton

Colour	Thickness	Size
Yellow	0.30mm	M-3XL

Heavy Duty Visibility Raincoat with High Reflective Strip

Model: **ST-3580-Y**

- Made of 0.30mm PVC on polyester broadloom fabric.
- Non-detachable drawstring hood which can fit over safety cap.
- Front zipper and extra flap for extra waterproofing & protection.
- Ventilation cape & 2 front waist pockets.
- All snap-on buttons are non-conductive, non-corrosive, and rustproof.
- Combination of Brite safe yellow colour with 50mm reflective strip around the waist & arms for excellent visibility.
- 1 pc: Knee-length Coat

Malaysia Design No: 01-00351
 Packaging: 1 pc/polybag, 20 pcs/carton

AlphaTec 1500 Plus Coverall

Model: **MG 1500 PLUS**

Colour	Size
Blue	M-2XL

- AlphaTec 1500 Plus is a highly breathable anti-static SMS fabric which utilizes the latest developments in micro-fibre technology to ensure good filtration efficiency.
- SMS fabric is particularly a good barrier against particulates such as asbestos, brick dust, and cement dust. It will also provide protection from light aerosol mists as found in some spray paint environments.

Applications: Asbestos Related Work, Handling Powders, General Maintenances, Constructions, Pharmaceutical Industries, Wood and Metal Processing, Touch-up Paint Spraying, Fibreglass, Resin Applications, and Ceramic Fibres.

Tested according to EN 1149-1

Packaging: 1 pc/polybag, 40 pcs/carton(M-XL), 30 pcs/carton(2XL)

AlphaTec 1500 Plus FR Coverall

Model: **MG 1500 PLUS FR**

Colour	Size
White	M-XL

- AlphaTec 1500 PLUS FR is a highly breathable, flame retardant, and anti-static SMMS polypropylene non-woven designed for protection against particulates, lights, non-flammable liquid sprays and splashes.
- Intended to be worn over heat and flame protective clothing. AlphaTec 1500 PLUS FR provides the wearer with protection from particulates (TYPE 5) and non-flammable non-pressurized liquid sprays or splashes (Type 6).

Applications: Petrochemical Industries, Industrial Cleaning, Utilities and General Maintenances.

Tested according to EN 1149-1

Packaging: 1 pc/polybag, 40 pcs/carton

AlphaTec 1800 Standard

Model: **MG 1800 STD**

Colour	Size
White	M-2XL

- AlphaTec 1800 STANDARD provides the wearer with entry level, low hazard liquids and particulates protection.
- Ideal for a wide range of general industrial applications.
- Lightweight breathable material and is particularly suitable for warmer working environments.

Applications: General Maintenances, Paint Spraying, and Powder Handlings.

Tested according to EN 1149-1

Packaging: 1 pc/polybag, 50 pcs/carton

AlphaTec Multipurpose Disposable Coverall

Model: **MG 2000 STD**

Colour	Size
White	M-2XL

- AlphaTec 2000 STD provides both protection and comfort with exceptional liquids and particulates protection.
- Ideal for a wide range of industrial applications.
- Moisture vapour permeable (breathable) to help reduce the risk of heat stress. Optimized body fit, to improve wearer's comfort and safety.

Applications: Pharmaceutical Industries, Agriculturals, Cleanrooms, Paint Spraying, Crime Scene Investigations, and Veterinary services

Tested according to EN 1149-1

Packaging: 1 pc/polybag, 40 pcs/carton

CE EN 1149-1

AlphaTec 2300 Plus

Model: **MG 2300 PLUS**

Colour	Size
Yellow	M-XL

- AlphaTec 2300 PLUS is an entry level Type 3 chemical protective coverall for workers involved in environmental clean-up, general industrial and chemical handling applications.
- AlphaTec 2300 PLUS fabric is comprised of a polyethylene (PE) barrier coating with a bicomponent non-woven inner layer. The combination provides an excellent barrier to many harmful chemicals while being lightweight and yet relatively strong and durable.

Applications: Environmental Clean-up, Sewage Purification Installations, Industrial and Chemical Manufacturing and Industrial Cleaning.

Tested according to EN 1149-1
Packaging: 1 pc/polybag, 45 pcs/carton

CE EN 1149-1

AlphaTec 3000

Model: **MC 3000**

Colour	Size
Yellow	M-XL

- AlphaTec 3000 is one of the lightest and most comfortable chemical protective garments.
- This durable multilayer fabric provides an extremely effective barrier against both inorganic chemicals and biological hazards.

Applications: Chemicals, Oil and Petrochemicals, Pharmaceutical, Food Industries, Sewage Purification Installations, Industrial Tank Cleaning, and Mining.

Tested according to EN 1149-1
Packaging: 1 pc/polybag, 20 pcs/carton

CE EN 1149-1

AlphaTec 4000

Model: **MC 4000**

Colour	Size
Green	M-XL

- AlphaTec 4000 is designed to provide an exceptional barrier against organic and inorganic chemicals, and biological agents.
- A unique multilayer barrier fabric renowned for its lightweight, yet robust textile feel.

Applications: Chemical Handling, Transportations, Oil-based Mud Protections, Hazardous Waste Remediations, Industrial Tank Cleaning, Pharmaceuticals, Mining, and Agricultures.

Tested according to EN 1149-1
Packaging: 1 pc/polybag, 10 pcs/carton

CE EN 1149-1

AlphaTec 5000

Model: **MC 5000**

Colour	Size
Orange	M-XL

- AlphaTec 5000 reaches new levels in chemical protection and has been engineered to protect.
- The highly visible multilayer fabric is strong, durable, and suitable for workers in extremely hazardous areas, including HAZMAT response teams.
- Protection against organic and inorganic chemicals, and biological agents.

Applications: Chemicals, Oils and Petrochemicals, Pharmaceuticals, Mining, Agricultures, First Responses, Fire Services, Industrial and Tank Cleaning, and Sewage Purification Installations.

Tested according to EN 1149-1
Packaging: 1 pc/polybag, 10 pcs/carton

ARC Flash Protective Suit

Model: AR-43
AR-48

Product Code	Size	ATPV
AR-43	S-2XL	43cal/cm ²
AR-48	L-2XL	48cal/cm ²

- ARC Flash Protective Flash Suit is designed to provide a solution that bridges a vast number of industries and adheres to the most important performance standards.
- Under normal wear condition, ARC suits can provide years of dependable and reliable service.
- ARC suits provide comfort with performance and a high level of aesthetic. Natural feel is a result of a high percentage in the blend of Tencel™ fibre.
- Comes with navy blue ARC flash protective hood, long coat, bib-pants, glove and blue package bag.

Packaging: 1 suit/box

APRON

Leather Protective Apron

Model:

WPG218GR
WPG218YLW

Product Code	Size
WPG218GR	24" X 36"
WPG218YLW	24" X 36"

These aprons are made of quality split cow leather with sew-on adjustable neck loop and waist ties. Provides ample body protection and extremely lightweight.

Available in 2 different colours: Grey & Yellow.
Packaging: 1 pc/polybag, 50 pcs/carton

Heat Resistant Apron

Model:

HPA/ALU/3048

Product Code	Size
HPA/ALU/3048	27" X 36"

Made of aramid & aluminized fabric with strong sew-on neck loop and waist ties. Provides high thermal insulation and extremely lightweight.

Packaging: 1 pc/box

Polyvinyl Apron

Model:

ST-3990

Product Code	Size
ST-3990	27" X 36"

Extremely lightweight and flexible with great resistance to chemicals, fats, oils, and greases. The neck loop and waist ties are made from cotton for extra comfort. Versatile splash protection and suitable for all general applications.

Packaging: 1 pc/polybag, 100 pcs/carton

Heavy Duty Polyvinyl Apron

Model:

ST-3880

Product Code	Size
ST-3880	28" x 40"

Made of 0.30mm PVC on polyester broadloom fabric with great resistance to chemicals, fats, oils, and greases. The neck loop and waist ties are made from cotton for extra comfort. Versatile splash protection and suitable for heavy duty applications.

Packaging: 1 pc/polybag, 100 pcs/carton

Synthetic Leather Apron

Model:

SLA-PU

Product Code	Size
SLA-PU	20" x 35"

These aprons are made of high quality synthetic PU leather with sew-on neck loop, waist ties, and waist pouch. Provides ample body protection and abrasion proof.

Packaging: 1 pc/polybag, 60 pcs/carton

Furniture Leather Apron

Model:

A 100E

Product Code	Size
A 100E	24" x 35"

These aprons are made of high quality leather with sew-on adjustable leather neck loop and waist ties. Provides ample body protection and extremely lightweight.

Packaging: 1 pc/polybag

PVC Blue Apron

Model:
ST-9696

Product Code	Size	Thickness
ST-9696	22" x 43"	0.20mm

- Covered front and back of the user.
- Made of high quality PVC for extra protection.
- Shaped for comfort and extra movement.

Packaging: 1 pc/polybag, 50 pcs/carton

Economic LDPE Apron

Model:
CPDA-LDPE-W
CPDA-LDPE-B

Product Code	Size	Thickness
CPDA-LDPE-W	32"x 54"	0.02mm
CPDA-LDPE-B	32"x 54"	0.02mm

- Light duty & economical.
- Larger size for maximum coverage.
- Excellent waterproof, extra soft, and comfortable.
- These aprons are a cost effective option for protection against spills and contaminations.
- Built-in ties to allow desired fit.

Packaging: 100 pcs/polybag, 10 polybags/carton

Chemical Resistant Apron

Model: **PROCHEM 1**

Product Code	Size	Thickness
PROCHEM 1	Universal	0.3mm

- To protect against mild chemical splashes.
- Made of PP Non-Woven with PE Coating.
- Covered front and back of the user.
- Lightweight fabric is suitable for working long hours.
- Total Length: 200cm (Front: 120cm, Back: 80cm)
- Width: 60cm
- Neck diameter: 20cm
- Weight: 108g

Packaging: 1 pc/polybag, 50 pcs/carton

PROTECTIVE SLEEVES

*Apron not included

Leather Protective Sleeves

Model:
WPG-221

Product Code	Length	Size
WPG-221	24"	Free

- These sleeves are made of quality split cow leather.
- Provides protection against welding sparks and extremely lightweight.

Packaging: 1 pair/polybag, 50 pairs/carton

*Apron not included

Heat Resistant Sleeves

Model:
HPS/ALU/22

Product Code	Length	Size
HPS/ALU/22	22"	Free

- These sleeves are made of aramid and aluminized fabric.
- Provides high thermal insulation and extremely lightweight.

Packaging: 1 pair/polybag, 50 pairs/carton

APPAREL

Welding Leather Jacket

Model:
WPG-222

Product Code	Size
WPG-222	Free

- These welding jackets are made of quality cow grain leather with two vertical level buttons for adjustable sizes.
- Provides excellent body protection against heat, welding sparks, & harmful welding rays.

Packaging: 1 pc/polybag, 10 pcs/carton

Welding Leather Trouser

Model:
WPG-223

Product Code	Size
WPG-223	Free

- These welding trousers are made of quality cow grain leather with elastic straps & buckles.
- Provides excellent leg protection against heat, welding sparks, & harmful welding rays.

Packaging: 1 pair/polybag, 50 pairs/carton

Welding Leather Foot Guard

Model: **WPG-225**

Product Code	Size
WPG-225	Free

- These welding foot guards are made of quality split leather with leather straps & buckles.
- Provides excellent foot protection against heat, welding sparks, & harmful welding rays.

Packaging: 1 pair/polybag, 20 pairs/carton

Bouffant Cap

Model: **TPNW**

Product Code	Size
TPNW	Free

- Made of spunbonded non-woven polypropylene.
- Used in situations where it is important to avoid loose hairs. Bouffant caps are a popular and economical choice of workplace head covering.
- Ideal for food industries, pharmaceuticals, cleanrooms, electronic industries, and many more.

Packaging: 100 pcs/polybag, 5 polybags/carton

Shoes Cover

Model: **ASNW**

Product Code	Size
ASNW	Free

- Made of spunbonded non-woven polypropylene.
- Ideal for food industries, pharmaceuticals, cleanrooms, electronic industries and many more.

Packaging: 50 pairs/polybag, 5 polybags/carton

PVC Oversleeves

Model: **PLNW**

- These sleeves are made of 100% PVC.
- All seams on the sleeves are electrically welded for excellent protection & eliminating leaks.
- Ideal for chemical handling, agriculturals, janitorials, & etc.

Packaging: 25 pairs/polybag, 125 polybags/carton

Product Code	Length	Size
PLNW	40cm	Free
